

**Enterprise Transformation as a Platform™  
(eTaaP™)**

galax  solutions™

GxFource® - today's industry leading eTaaP™ -  
moves great ideas into operational reality.

Designed and developed through 30 years of practical application at Fortune 500 disrupters, GxFource® pulls together the common threads of our successful client transformations.

## **Products • Playbooks • Experts • Services**

These four elements – a pervasive use of automation, deployment via trusted playbooks, exceptionally trained and experienced talent and a suite of end-to-end services – together constitute a repeatable factory for transformation: Enterprise Transformation as a Platform™.

Welcome to successful transformation. Every single time.

In this era of transformation,  
companies are changing how they earn and operate:

**75%**  
of the **S&P 500**

will turn  
over in  
the next

**15**  
**YEARS**

with  
over

**80%**  
**OF CEOs**

recognizing that

# TRANSFORMATION

is necessary and

**CHANGE IS THE NEW NORMAL**

Transformation is a priority for cutting-edge companies competing in dynamic environments that require deep process and system re-engineering.

With GxForce®, you can plan your journey and predict the outcome of your new operational and business model.

Trained Solutionists

GalaxE.Solutions specializes in platform-driven enterprise transformation. We live at the intersection of business consulting, IT consulting and technology products; where deep process and system re-engineering is the norm and transformation is more than just a buzz-word.

### **eTaaP™ - Delivering Environments of Change at Speed.**

For 30 years, GalaxE has pioneered the use of automation to achieve mission-critical change for Fortune 500 disrupters in the healthcare, financial, pharma, life sciences and retail industries.

With an unquenchable thirst for innovation, our automation platforms transformed industries with solutions such as robotic pharmacies, zero defect complex infrastructure mergers, and self-funded product support.

We specialize in complex, large scale precision work associated with end-to-end metamorphosis in high speed, high volume data systems that process millions of transaction in a 24x7 environment. These challenging environments are exclusively addressed through a fully integrated automation platform that delivers predictable results and targeted goals.
